

MMP^e : Modification Maintenance Plan **extended**

Overview

HighTower's Modification Maintenance Plan **extended** is a perfect solution to lengthen the life of your Extended Solutions for MAS 90 and 200, in a time sensitive, cost efficient and reliable manner. Unique within its industry, the Modification Maintenance Plan **extended** guarantees a fixed investment for up to two upgrades per year.

User Applications

With the release of Sage MAS 90 and 200 version 4.4, Sage Software will begin incorporating its most market-driven Extended Solutions into its core MAS 90 and 200 products. Many Extended Solutions, however, are going to be retired. To keep retired titles running in version 4.4 and beyond, HighTower has created a simple, affordable, and effective solution – MMP^e.

Features and Benefits

- Keep your existing Extended Solutions current and operational in Sage MAS 90 or 200 v4.4 and beyond.
- Update each Extended Solution up to twice per year.
- Low, budgetable, flat annual rate.
- Upgrades within six weeks. HighTower's timeline promise is that upgrades to modifications will be delivered in six weeks or less.
- HighTower is a Gold level Sage Development Partner with over twenty years experience developing Sage Software customizations and enhancements.

Requirements and Pricing

Requirements:

- An MMP^e plan is purchased for each module that includes an extended solution.
- The plan covers upgrading each MAS 90 or 200 Extended Solution up to twice within the 12 month coverage period.
- Enrollment in HighTower's MMP^e is contingent on having a current Sage Maintenance Plan.
- Must be at the current version of MAS 90 or 200 or two versions back (Currently v4.2, 4.3, and 4.4).*

Annual Fixed Rate Pricing:

\$350 Module enrollment (for each module that contains any Extended Solution(s)).

Then: \$150 per Extended Solution*

* Pricing is based on modules and Extended Solutions already in the 4.x framework. Non 4.x framework modules and Extended Solutions will have an additional surcharge assessed when moving to the 4.x framework. Call for details.
