

SAGE FAS

FAS 100 CIP ACCOUNTING

**CONSTRUCTION IN PROGRESS
MADE EASY**

- Easily manage unlimited projects of any type or size—up to thousands of individual components
- Manage both capitalized and expensed assets for convenient project tracking
- The convenient “Project Snapshot” feature displays key project information at a glance, including budget tracking and project alerts
- Easily accumulate and summarize numerous purchase orders, invoices, receipts, and tasks—including physical components, shipping costs, labor/assembly charges, and unlimited miscellaneous items

**TOP-NOTCH SUPPORT IS JUST A
CALL OR CLICK AWAY**

Sage FAS SupportPlus members benefit from an unmatched level of customer support. You can use Sage FAS SupportPlus Online to get answers 24 hours a day, 7 days a week. Or call our friendly experts for help. What’s more, Sage FAS SupportPlus users can also download software upgrades, access multimedia tutorials, and take advantage of exclusive discounts on new products.

FAS 100 CIP Accounting sports a clean user interface, including a Project Snapshot feature that lets you view up-to-the-minute project status at a glance.

Take control over your fixed assets even before they become fixed assets with FAS 100 Construction in Progress (CIP) Accounting. Whether you’re assembling multi-component equipment, upgrading machinery, renovating buildings, or just accumulating separate invoices prior to placing a fixed asset into service, FAS 100 CIP Accounting is the perfect solution to your construction in progress needs.

With multiple levels of detail tracking and numerous built-in reports, you can easily manage and report on unlimited projects including current project status, actual vs. budget variance, and project details. Manage both capitalized and expensed assets for convenient project tracking, and get key project information at a glance with the convenient “Project Snapshot” feature. Plus, with this fully integrated solution your fixed assets are instantly created in FAS 100 Asset Accounting upon project completion.

From developing innovative products to providing award-winning customer support, Sage Software is dedicated to surpassing expectations in all aspects of our business. For more information about FAS 100 CIP Accounting, please call us toll free at 800-368-2405, or visit our Web site at www.sagefas.com. Sage customer service representatives are standing by to provide you with top-notch products and service.

FAS 100 CIP Accounting

“Before implementing FAS 100 CIP Accounting, we used Excel spreadsheets to track our building expansion and equipment purchases. The Sage FAS solution has proven very useful, because it really helps us keep an accurate record of equipment installations, which are long-term projects with many different allocations.”

Scott Reed, Assistant Manager, Accounting
TOA (USA), LLC.

Manage your fixed assets before they become fixed assets

- Track all of your project details including status, contacts, notes, and all the financials—plus monitor both physical and financial completion status of projects
- Copy, move and split line items to ease expense handling
- Customizable to your business with over 45 user-defined fields covering all levels of detail
- Built-in security settings allow customized user profiles to specific product features and projects
- Consolidated reports offer a broad look at your business across all projects
- Create unlimited custom reports on every aspect of your project—including project status, asset financials, and invoice details—with optional FAS Report Writer
- Easily handle expenses with the ability to copy, move, and split line items
- Numerous reports available at the project, line item, and transaction level

Seamless integration for powerful results

- Seamless integration with the entire line of Sage FAS fixed asset management solutions, including Sage FAS Gov and Sage FAS Nonprofit
- After project completion, instantly create new fixed assets in FAS Asset Accounting—including multiple assets from a single line item
- Point-in-time reporting helps to easily tie out project balances to your general ledger
- Easily import monthly invoicing transactions from your Accounts Payable system to keep your project up-to-date using the convenient “import wizard”
